

G. U. LAW SCHOOL PLANS EXPANSION

New Building Will Be Erected This Summer on E Street.

WILL BE DUPLICATE OF PRESENT HOME

Structure, For Which Plans Are Almost Complete, Will Cost \$75,000.

The Georgetown University Law School will have a new building completed and ready for occupancy before the opening of the next school year in October.

The rapid growth of the classes in the Georgetown law department has necessitated the enlargement of the present building at 228 E street. This year's freshman class had about 250 members, entirely too many to be accommodated in the rooms now available.

Acting upon this necessity, the university has purchased the building directly to the west on E street. This building will be torn down and on the site, a new structure, forty feet front by seventy feet deep, and three stories high, will be erected. The new building will conform in architecture to the present one, and will be practically a duplicate except that it will be ten feet narrower.

The plans which are not yet completed, are still in the hands of Architect A. P. Clark, Jr., and will be ready to be submitted to the faculty within a few days. The building will cost \$75,000.

The only change planned by the law school is the addition of several instructors to the faculty in order that the large classes may be divided during recitations. The lectures will be given to the entire class by the professors now on the faculty.

Before the work of raising the structure on which the addition will be built can be started, an arrangement will have to be made with tenants now in the building by which they will surrender their interests under the leases they now hold.

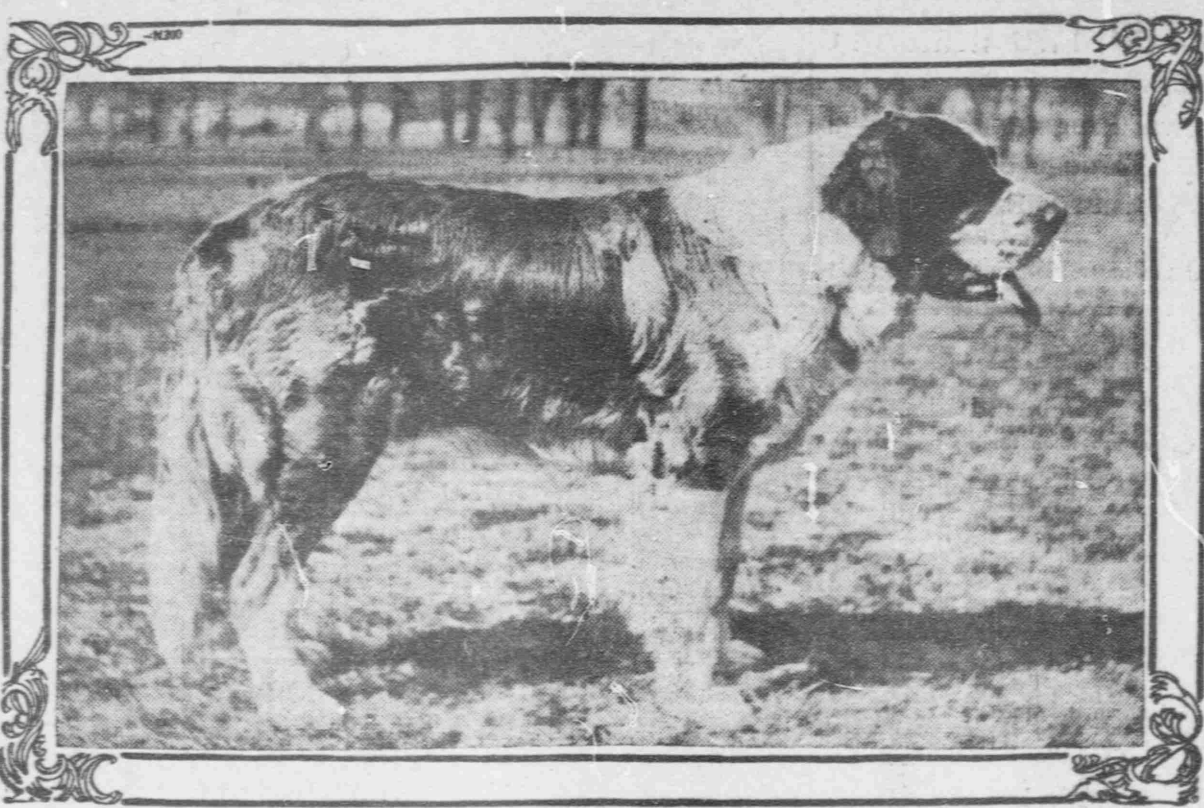

The contract has not yet been awarded, and will not be until the faculty has approved the plans and specifications. The construction work will be carried on during the summer vacation, and it is expected to have the building done in time for the opening of the fall term, the first Wednesday in October, 1910.

CHARGE IT TO HORSE.

When Senator Dick of Ohio stepped in to chat a bit with President Taft the other day, he had occasion to illustrate a point with an anecdote culled from his own rich life's experience. This happened in the callow days of Mr. Dick's career, when he was yet in the hay and feed business in Akron. One day he was called to the telephone to take an order.

"I want a bale of hay," said the distant voice.
"A bale of hay," repeated Mr. Dick, taking copious notes.
"And twenty bushels of oats."
"Yes, sir."
"And half a load of straw."
"Yes, sir. Anything else?"
"No, that's all. Send it right away."
"Yes, sir," said Mr. Dick, politely.
"And whom is this for?"
"Why, whom do you suppose?" the other demanded, angrily. "It's for the horse, of course, you darned fool. Don't get gay with me."—Cincinnati Times-Star.

BLUE RIBBON ST. BERNARD AT KENNEL CLUB SHOW

PRINCE FRANCOIS, T. O. CROWN'S ENTRY.

WASTE IS ENORMOUS, DECLARES HERRICK

High Cost of Living Due to Extravagance, Believes Ohioan.

NEW YORK, April 15.—Millions of dollars wasted annually in conducting the United States Government are declared by Myron T. Herrick, former governor of Ohio, to be one of the most important causes for the high cost of living. Mr. Herrick said that, according to figures he had compiled and those given him by United States Senator Aldrich, something like \$300,000,000 is wasted every year by the United States Government. If this needless and wasteful outpouring of money could be stopped, conditions would greatly improve, he said.

Mr. Herrick said that Mr. Taft realizes that there is a tremendous annual waste, and is trying to stop it. In the last year he has saved \$49,000,000 by cutting the estimates of the different heads of departments. He also has saved considerable money by placing the Census Bureau on a business basis. Mr. Herrick created great enthusiasm by his statements, which were made at the dinner of the National Metal Trades Association just before it closed at the Hotel Astor. He declared in speaking that American politics had degenerated into a matter of spoils, and that the administration of public affairs to an amazing degree has been left to the incompetent and dishonest.

Mr. Herrick said:

"New York has been a striking ex-

ample of a city operated by political rather than business methods. With a yearly revenue from taxation and other ordinary sources of \$150,000,000, and with 60,000 employees, this city until quite recently did not know how much it owed, while by placing the business of the city on a basis of favoritism rather than competition a loss has been estimated from \$10,000,000 to \$20,000,000 a year.

"In many branches of the Government service there has been little or no progress in half a century, except in the size of the appropriations required to operate them. In 11 years government expenses have increased five times as fast as the population. Senator Carter is authority for the statement that the methods of the postoffice have not changed since 1855. The Postmaster General asserts that 5 cents a pound, or \$4,000,000 a year, is being lost on one class of mail matter alone. Senator Aldrich gives it as his opinion that the National Government could save \$300,000,000 a year, if it were conducted on a business basis and managed like a large corporation."

SOME ODD FACTS.

England's "boy scouts" now number 300,000.

The use of trackless trolleys is rapidly extending in Europe.

An uncut diamond looks much like a bit of the best gum arabic.

A horse eats nine times its weight in food in a year, a sheep six times.

The value of automobiles entering the world's markets in 1909 exceeded \$50,000,000, against \$3,000,000 in 1902.

A Pittsburgh widow who was compelled to sell her beautiful hair in order to keep her children from starving has received an offer of marriage from a rich man in Oklahoma.

Gold pieces are the only coins of the United States which are worth their face value intrinsically. A double eagle contains \$20 worth of gold, without counting the one-tenth part of copper.

HUSBAND SHOCKED.

"I suppose the execution of your husband was a terrible shock?"
"For me it was, but not for him; he was electrocuted."—Bon Vivant.

FREAKS AND CLOWNS AMUSE AT Y. M. C. A.

Annual Acrobatic Circus Proves to Be Jolliest Event of Season.

The "Greatest Show of the Year" was presented at the Y. M. C. A. last night, when the annual acrobatic circus was held. There was but one rival to it and that was the side-show. Those who had the necessary 35 cents to take in both events need not get excited when the professional circuses come to town next month.

All the "freaks" in the side show were from the rolls of the Y. M. C. A. Even Mme. Circe and Mme. Bon Ami are members, but their best friends do not know them last night, so fearfully and wonderfully they were arrayed.

The same may be said of Zillah and Dame Darnask, a colonial dame, the point on whose cheeks ran away and left her toward the close of the show.

In the circus proper some fine acrobatic feats were performed. Among those who participated were Messrs. Sigel, Young, Hans Hansen, Long Nesmith, Nelson, and Zorlo, gymnasts; Wood, Peaslee, Straubach, Owen, and Young, clowns; Nelson, Zorlo, Ellason, Ott, Fortier, and Leonard, aerialists, and C. A. Watson, ringmaster.

A large crowd attended both shows and from the applause that greeted the various stunts the spectators enjoyed themselves thoroughly.

FOXHOUND PACKS TO BE EXHIBITED

Many Rare and Beautiful Dogs Shown At Kennel Show.

Foxhound packs will be the feature of the Washington Kennel Club dog show tonight at the Arcade, when the best dogs of the breed will be shown.

Tomorrow night the concluding exhibition will be given. Artistically, it has been a great success and, financially, the club will come out ahead, the receipts of yesterday and last night being the largest of any one day.

Many awards have been made, some rare dogs getting the blue ribbons and the prizes. Among the animals shown was an Eskimo dog, valued at \$1,000. Champion Ipsi is his name. He is owned by a Los Angeles man. A number of bloodhounds, the kind used to track human beings, are on exhibition. Another rare dog is Bianca, a pure white bloodhound owned by Miss Mary Cushman, of this city. The animal has been given a first prize.

Another dog of class shown is Prince Francois, a St. Bernard, two years old. He won three blue ribbons in the novice, local, and open classes, and in the final round he was not in the best of shape. Prince Francois won the admiration of the gathering.

Great interest is being shown in the race for the Persian lamb coat donated by the Saks Fur Company. A number of prominent society women are seeking it.

This morning there was a large attendance that increased as the day advanced. Tonight promises to be a record breaker as far as numbers are concerned.

E. R. THAYER MADE DEAN.

BOSTON, April 15.—The election of Ezra Ripley Thayer, of Boston, as Dane professor of law and dean of the Harvard Law School to succeed the late James B. Ames, has been confirmed by the board of overseers. Mr. Thayer is about forty-three years of age, and for a year or so lived in Washington, D. C., as the private secretary of Justice Horace Gray, of the United States Supreme Court.

MAKES GOOD, HEALTHY FLESH

A Leading Druggist Offers to Pay for Samosee if It Fails.

Begin the use of Samosee today, and you will soon notice a gain in good, healthy flesh. To all who are thin, weak and run down, this remarkable flesh-forming food promises plump, rosy, perfect health, vigor and vitality.

Samosee mingles with the food that is eaten, so that it is assimilated by the blood, and builds up pleasing plumpness and good healthy flesh. Those who use Samosee for a week or ten days will soon notice a gain in weight and an improvement in general strength and health.

Put good, solid flesh on your bones, and you will be strong and well. In no other way can this be done than by the use of Samosee. It gives plumpness and physical grace to the thin and scrawny, and will make you bright, rosy and normally fat. Samosee is in tablet form, pleasant to take, and is sold by one of the most reputable drug stores in Washington, D. C., Jas. O'Donnell, under his personal guarantee to refund the money if it does not give satisfaction. Sent postpaid on receipt of price, 50c. The Dr. Howard Co., Binghamton, N. Y.

DON'T BE BALD

One of Our Readers Tells How She Obtained a Marvellous Growth of New Hair by the Use of a Simple Home Remedy After Hair Specialists and Tonics Had All Failed.

I had what most people would call a beautiful head of golden hair. I prized it most highly, as I considered it my chief attraction. Suddenly it began to come out very rapidly, and at times I had intense itching of the scalp. Physicians and hair specialists said my case was one of dandruff germs, hair microbes, etc., but nothing that they gave me did the slightest good. On the contrary, my hair seemed to come out even faster, and I was now fearful lest I should become entirely bald. In my despair a friend told me of an Ecuador herb which he said would positively grow hair on any head where the hair roots were not entirely gone, and he said the natives of the country where it grew were famous for their beautiful long hair. Upon medical advice I combined this herb with Bay Rum and Menthol Crystals and immediately began its use. In three applications it entirely stopped the intense itching of my scalp and in a very short time it not only stopped my falling hair, but I noticed an abundance of new hair coming in. In less than one month my hair was longer, thicker, and more beautiful than ever. All due to this marvelous hair growing herb. A lady to whom I gave the formula used it on her daughter, and she says it made her hair grow five inches in less than a month. Ducture to whom I have shown it says it is the only thing which will actually grow new hair, therefore I think the public ought to have it. At first I thought I would keep it a secret and sell the secret, but when I think how I suffered and how badly I needed it and how hundreds of others must need it the same as I did, I feel I ought to give it to the world.

Therefore, I authorize this paper to publish the formula, which is as follows:—Bay Rum, 6 oz.; Lavona de-Composée, 2 oz.; Menthol Crystals, 1 dr.; To-Kalon Perfume, one to two teaspoonfuls. Ask your druggist for an 8 oz. bottle containing 8 oz. of Bay Rum, then put in the Menthol Crystals and the Perfume. Next add one-half of the bottle of Lavona de-Composée, let it stand six to eight hours and add the remainder of the Lavona de-Composée. Always buy the Lavona de-Composée in a two oz. sealed bottle, as this preparation contains the juice of the Ecuador herb mentioned above, and it loses its strength if unsealed.

Apply the preparation night and morning and rub it into the scalp. If properly used it will soon produce a most astonishing result. Be careful not to get it on the face or any part of the body where you do not want to produce hair. The People's Pharmacy, Seventh street and Massachusetts avenue, the well-known and popular druggists of this city have filled this formula for many of their patrons, and state that the satisfaction from its use is so great that they have found it necessary to make special provision to fill the prescriptions promptly and carefully.
